Events

- Innovation and Industry
- Responsible oil and gas
- Risers and flow lines

02 - 05 May 2022

From 2 to 5 May will be held, in Houston (USA), the international conference OTC 2022. This conference offers energy professionals excellent opportunities for exchanges around technologies and skills in the field of offshore.

IFPEN will presents its offer in terms of **offshore drilling and production** including its **new generation of i-Clip 1.0, hybrid lines for drilling risers** and its solutions in the fields of **flow assurance**.

Come visit us on French Pavilion, **booth 2639L**
