06 - 08 October 2023

With the Olympic Games on the horizon, the theme of the [32nd Fête de la Science](#) is sport and science.

On Sunday 8 October at 3:20 pm, Guillaume Berthe and Philipp Schiffmann, researchers at IFPEN, will present the [Flair Suite](#), an environmental gas monitoring solution, from a sporting perspective.

**Important information**

This year's Fête de la Science will be held at the [musée de l'Homme](#), where the “Science en direct” programs will be hosted by Fred Courant and his team.
