Events

- Innovation and Industry
- Climate, environment and circular economy
- CO2 capture, utilization and storage
- Water cycle management
- Renewable energies
- Biogas
- Geothermal energy
- Hydrogen
- Responsible oil and gas

04 - 07 November 2024

The latest **ADIPEC conference** will take place from 4 to 7 November 2024.

ADIPEC will give attendees a unique opportunity to network in person with the leaders, innovators, buyers and sellers who are taking the energy industry into the future. Gain an international perspective with energy professionals from 164 countries and join the discussion on creating responsible and resilient energy transition. Visit the France Pavilion (booth 9230) to find out more about IFPEN's solutions for competitive renewable energies, minimizing the climate impact of industrial activities, and reducing the environmental impact of fossil fuel production.

Axens and Beicip-Franlab will also be showcasing their solutions.
