- Innovation and Industry

With a view to supporting the rolling out of digital technologies in industrial activities, IFPEN has become a member of the [Plant 4.0 incubator](#), which pinpoints and attracts the most innovative start-ups in industry 4.0 from around the globe.

This will facilitate the identification of high-potential start-ups for IFPEN and it will also speed up the diversification of IFPEN's project portfolio.

>> Check out the testimony of Benoist Thirouard, Director of Incubation & Open Innovation, during the last Plant 4.0 start-up selection committee meeting which took place at the Vivatech show (Paris) in June 2019 :
